

AN ISO CERTIFIED COMPANY

YOUR APPLICATION. OUR SOLUTION.

Fabricator of Custom Hose and Tube Assemblies

WHO WE ARE

Manufacturing Quality Products For Over 50 Years

About Us:

MFC is a leading fabricator of industrial and hydraulic hose, fittings, and formed tube products. We market our products throughout North America to various industrial and commercial customers. Founded in 1969 as a manufacturer of metal hose assemblies, MFC has continually expanded our product offering in an effort to become a complete supplier of fluid conveyance products.

Competencies:

- Crimping
- Assembly
- Tube Bending
- Welding/Brazing
- Sourcing
- Testing

Construction & Agriculture

Bent Tubing
Hose/Tube Combination
Hydraulic Hose

Oil, Gas, and Petrochemical

Composite Hose
Metal Hose
Chemical Hose

Food Processing

Teflon Hose
Plastisol
Sanitary Assembly

Paint Spray

Paint Spray Hose
Bundled Assembly
Suction Set

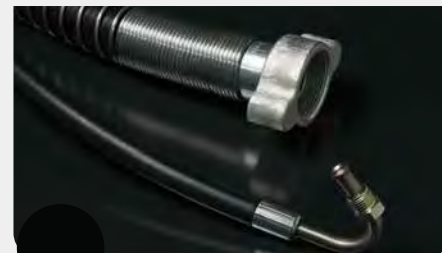

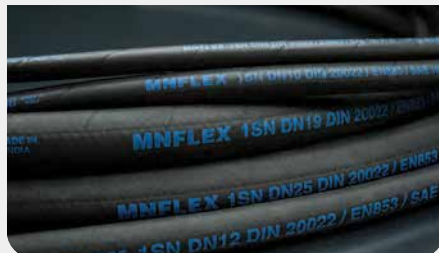

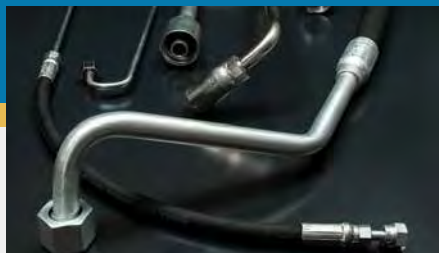

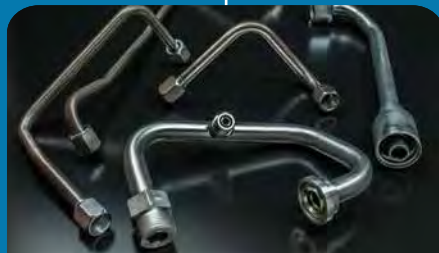

Power Generation

Exhaust Connector
Formed Rubber
Fuel Line

General Industrial

Cut Rubber Parts
Large Diameter Assemblies
Steam Hose

VALUE ADDED

MFC provides an array of value added services that complement our exceptional products.

Bin/Rack Fill Programs

To eliminate the cost of handling our products, MFC can handle all the logistics of getting our products to your production line.

MFC Managed Inventory

MFC can eliminate the carrying cost of expensive inventory by managing it for our clients. Each program is customized to maximize the cost benefit.

Field Engineering Service

Let the experts at MFC help in the selection and routing of our products. Our staff can help eliminate hose, tubing, and fitting costs while improving the longevity of our products.

Assembly Testing and Certification

MFC has complete testing and certification capabilities. From burst and proof pressure testing to thread gauge verification, MFC assures that our products will meet your specifications.

Custom Hose Kitting

Reduce the complexity of purchasing our products by having MFC construct custom hose kits. Assemblies can be kitted and labeled for easy identification while reducing the number of part numbers that need to be managed.
